

## **COVID-19 LADYBUG MUSIC PREPAREDNESS PLAN**

**Guided by MDH and CDC**

### **AT-HOME HEALTH EVALUATION:**

**Teachers** will conduct daily wellness and temperature checks. In the event that a teacher is ill or has a fever of 100.4 or higher, class will be held online or rescheduled to the end of the session.

**Parents-** Please check both your temperature and your child's temperature the morning of class. If either has a fever (100.4 or higher), you must stay home and can view one of our live streaming classes.

The MN Department of Health has created this [Home Screening Tool for COVID-19 Symptoms](#) and [Attendance Guide for Parents](#). Please use this to determine if your child is healthy and should attend our classes.

### **ARRIVAL:**

Please wait in your car and do not enter the studio until 5 minutes prior to class starting. If you need to use the restroom, change diapers, or wash your hands, you may enter into the building earlier.

### **SOCIAL DISTANCING:**

Each family will be 6 feet from the next family. Spaces will be clearly defined by tape. Please follow social distancing guidelines and stay on and around your families area.

### **HAND WASHING/SANITIZING**

Please wash hands prior to arriving for class (at home or in the building bathroom). Hand sanitizer will be provided at the door.

### **FACE MASK USE:**

Teachers will wear a cloth mask as families arrive and depart. Teachers will wear a face shield while teaching the class.

Adults attending must wear a cloth mask/shield as mandated by the state law. Children do not need to wear a face mask.

### **CLEANING AND DISINFECTION**

Cleaning and Disinfecting will be conducted before and after each class on all regularly touched surfaces.

Each family will have their own bundle of instruments to be used only by them during the duration of class session. We will ask the adults attending with children to

use sanitizing wipes to clean the materials used during class. We will provide sanitizing wipes and instrument bundles that are included with tuition.

### **COMMUNICATION AND TRAINING**

Teachers will communicate possible/confirmed COVID-19 cases and the measures being taken to keep children healthy. Teachers will stay current on the CDC and MDH guidelines to reduce the spread. Families will be notified of any changes and are expected to cooperate with any future changes.

### **CHILD, TEACHER, or FAMILY ILLNESS**

The MN Department of Health has created this [Attendance Guide for Parents](#). Please use this to determine if your child is healthy for our classes.

Staying home when you are sick is one of our best ways to fight COVID-19. Keeping sick children and children who are exposed to COVID-19 away from others helps stop the spread of the virus to other children, staff, and the surrounding community. Parents and guardians can use this guide to understand when their child can attend school, youth programs, and child care during COVID-19.

**Thank you for your understanding as we all navigate uncharted territory.**

**-Melissa**
